ALAA BOGHDADY

Junior AI Engineer • Generative AI • Machine Learning • NLP

alaaboghdady37@gmail.com | +20 122 102 0715 | Cairo, Egypt | linkedin.com/in/alaa-boghdady-3876b7203 | github.com/Alaa-Boghdady

PROFESSIONAL SUMMARY

Junior AI Engineer with hands-on experience developing enterprise AI solutions using Python, Large Language Models (LLMs), OCR, Prompt Engineering, and Retrieval-Augmented Generation (RAG). Experienced in designing AI workflows for document intelligence, integrating AI microservices with backend systems, and supporting AI-powered compliance solutions. Strong foundation in Machine Learning, Deep Learning, NLP, and Computer Vision, with a passion for building practical AI applications that solve real business problems.

EXPERIENCE

AI Engineer Trainee | *SustainGRC* May 2026 – Present

- Worked on **AI-powered solutions for regulatory compliance and document intelligence** within an enterprise GRC platform, contributing across the following modules:
- **Policy Management** — Worked on AI-assisted parsing and classification of internal policy documents against regulatory requirements, supporting version tracking and compliance mapping using LLMs.
- **Regulatory Relationship Management** — Participated in designing AI workflows to organize regulator communications and obligations, linking them to compliance status and reporting.
- **Data Connectors** — Contributed to integrating AI microservices with backend data connectors via REST APIs and Kafka-based asynchronous pipelines for real-time data ingestion.
- **Privacy & Data Protection** — Contributed to AI workflows for sensitive data identification and classification, with confidence-scored extraction and human review to support audit readiness.
- Applied **Retrieval-Augmented Generation (RAG)**, OCR, and prompt engineering across these workflows, using Git, Jira, Bitbucket, and Postman in an **Agile environment**.

TECHNICAL SKILLS

Programming: Python
Generative AI: LLMs, Prompt Engineering, RAG, AI Agents, Document Intelligence, OCR Pipelines
GRC & Data Privacy: Policy Management, Regulatory Compliance, Data Privacy & Protection, Sensitive Data Classification
Machine Learning & DL: Classification, Regression, Clustering, TensorFlow, Keras, PyTorch (Basics), CNNs
NLP & Computer Vision: Text Processing, Chatbots, Regex, Image Classification, Object Detection, Segmentation
Backend & Integration: REST APIs, JSON, Kafka, AI Microservices, Data Connectors
Data Analysis: Pandas, NumPy, Matplotlib, Seaborn
Tools & Cloud: Git, GitHub, Bitbucket, Jira, Postman, VS Code, Docker (Basics), AWS/GCP (Basics)

PROJECTS

- **Chest X-ray Pneumonia Detection** — Built a CNN-based detection model with transfer learning; compared deep learning vs. classical ML approaches.
- **Customer Churn Prediction** — Built classification models with feature engineering to predict churn and support business decisions.
- **Movie Recommendation System** — Implemented content-based (cosine similarity) and collaborative filtering recommendation approaches.

EDUCATION

Bachelor of Commerce – Accounting | Aswan University | 2020 – 2024

CERTIFICATIONS

AI Diploma (INSTANT) • Applications of Artificial Intelligence (BUE) • AI Level 1 (Mindset) • Machine Learning Specialization (DeepLearning.AI – Andrew Ng) • Machine Learning Process A–Z, Statistics, Mathematics (365 Data Science) • Python for Data Science and Machine Learning (Udemy)

LANGUAGES

Arabic — Native | English — Professional Working Proficiency
